DETAILED ACTION

The following is an examiner's statement of reasons for allowance: The present invention is directed to an acoustical speaker apparatus. Each independent claim identifies the uniquely distinct feature of a tweeter and cross-over component coupled to the grill in a second opening of a two pieced, generally spherical housing wherein the opening is located at or near the vertex of the respective housing half. The closest prior art, Choi et al. (US 6,009,972) teaches an omni-directional speaker system in a spherical housing and Lahti (US 3,812,301) teaches a spherical loudspeaker. The prior art fails to anticipate or render the independent claims obvious.

The following references were cited: Fujita (US 3,735,041) teaches a spherical cabinet for electronic communication apparatus; Copetti (US 6,705,426) teaches a parabolic shaped acoustic diffuser; and Ishii et al. (US 3,720,787) teaches an omni-directional globular speaker system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Ensey whose telephone number is 571-272-7496. The examiner can normally be reached on Monday - Friday 6:30 AM - 3:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Curtis Kuntz can be reached on 571-272-7499. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
